10/14/73:

Re: . Called at to make appointment for visit for purpose of exhumation. He is no blood relative of . Apparently the matter was discussed with Mrs. before (not by me) and he stated it was her express wish that nothing be done with Mr. He knew exactly what I wanted before I even opened the subject up. I have found in the many years of experience that our requests cannot be forced on people and that once they say "no", unless one can change their mind at the time - one does not get anywhere - and repeated approaches only annoy them.

Re: . After many phone calls, I finally reached , his son, at . He reiterated his previous refusal of exhumation permission. Must have been his wife who convinced him.

10/27/73:

Re: . Went to Asheville, N.Y. by plane to visit . Numerous phone calls to number given by operator had produced no replies. No listed. Stopped at Moody Funeral Home. Mr. husband of is dead but son lives at family homestead on Route 3 north of Ice Co. about 12 miles from "downtown". Drove there - house is lived in but nobody home. Spoke to neighbor one mile away on Road. He may be at Mrs. in Lower Larka - on the other side of town. Drove there, "no he is not here, don't know where he is". Returned to house - still nobody home. Returned to Asheville.

10/28/73:

Returned to Bryson City and found at home. Obtained his signature for exhumation. He thinks only his sister, Mrs. may give us problems. Returned to Asheville and Philadelphia. His phone is listed under his wife's name,

Sent exhumation permission to M. M. Shanahan.
